Substance Use Services Referrals

Referral for Treatment

You will receive a call from the Rocket Doctor patient care team shortly after the fax has been received. They will book an appointment with the next available Substance Use Services specialist at a time that's convenient for you.

Self-referrals/Walk-in services

We also accept patients without a referral. You can book a same-day appointment any time at <https://rocketdoctor.ca> and request a Substance Use Services physician. The only requirement for self-referral is a valid Ontario Health Insurance Plan (OHIP) card.

Services Available:

- Evening and weekend coverage, including walk-in services
- Cross coverage of patients for urgent addiction medicine concerns, including withdrawal management
- Inpatient and longitudinal follow-up of patients in hospitals or withdrawal management facilities
- Integration with existing virtual and in-person psychosocial services (e.g., Breaking Free Online, Wellness Together Canada, local RAAM clinics, local Canadian Mental Health Association and crisis resources)
- Diagnosis of all substance use disorders
- Trauma-informed care
- Motivational interviewing and harm reduction education
- Infectious diseases screening
- Urine drug screening
- Medical management of all substance use disorders
- Diagnosis and initial management of concurrent medical and psychiatric disorders, including internal and external specialist referrals when indicated
- Communication with and transfer-of-care to family physicians upon stabilization
